

João de Deus - John of God

João de Deus, original name João Teixeira da Faria, born June 24th, 1942, calls himself a medium and spiritual surgeon.

He lives and works in Abadiânia, a small town in Brazil, where he founded the Casa de Dom Inácio.

João is considered the most renowned healer in the world.

For more than 50 years he treated people from all over the world, who were seeking help, and changed the lives of millions of people in a positive way.

So-called spiritual “Entities” (the spirits of long gone physicians and healers) work through him. The successes in healing are unprecedented and supported by numerous scientific studies.

João inspires us to think about matter and spirit in a modern way.

Casa - Centre of Healing

More than 30 years ago, João de Deus followed his mission and founded the Casa de Dom Inácio on the outskirts of Abadiânia, a small village in the centre of Brazil.

Abadiânia is situated in the province of Goiás, southwest of the capital Brasília, about 1,5 hours' drive away.

The Casa is a sacred place, where healing and opening of the hearts is practiced at different levels.

Three days a week, Wednesdays to Fridays, the treatments take place. João does not finish his sessions, before all people who have been waiting, have had a chance to see him.

Often there are 500 people or more a day.

What makes this place a place of power?

The village is built on a field of crystal rocks.

Therefore, it has a very high energy that intensifies the closeness to ones' self, nature and to your heart. Your inner journey is visibly and noticeably accelerated through this increased energy.

Official Guides of the Casa de Dom Inácio

As official guides of the Casa Dom Inácio de Loyola - and with the support of the entities - we accompany women, who are drawn to celebrate the Feminine Power in a modern and balanced way.

A new form of guidance and empowerment of women in the Casa; a flowing form, the ego dissolves and love takes its place, soft yet strong—beyond the boundaries of what our mind can understand.

With impulses and heart intelligence we inspire women - their daughters are more than welcome to join us - to expand & strengthen their feminine power for a New Generation of Mothers, female Leaders, Businesswomen, Physicians, Scientistsfor all women, who are now chosen to be the driving force to evolve humanity to a next level.

Casa as location for New Generation Women

The Casa feels like a magic island of the heart, an authentic place of power & growth.

In the 25 years of my personal inner journey I have never experienced something that comes even close to its power and causes such profound changes in people.

Since the Casa is a place of love, the combination of our work with the healing of the “Entities” could not be better.

If I had only one word to describe the Casa ...**simply love...**

Climate

From October to April it is summer with temperatures of around 30°. From May to October it is a little cooler with temperatures around 20 – 25°. For most of the year it is sunny, with mild temperatures of 13 – 20° at night, sometimes even cooler.

The rainy season is between November and January.

It is recommendable to take an umbrella and a warm jacket.

Currency

The currency in Brazil is Real (Reais).

It is possible that the cash machines in Abadiania don't work, for a few days or even a week.

We, therefore, highly recommend having enough cash with you to stay independent from possible technical problems.

Technical problems can also affect Internet connection & electricity.

It usually works again after a few hours.

Please note: During the rainy season the Internet connection can be weak at times
